## HONORING THE NAVY

...... French Embassy's Courtesies to Training Ship Officers and Cadets,

BRILLIANT RECEPTION AND BALL

Ambassador Cambon at the Head of the Receiving Party.

A reception of rare brilliance and social importance, followed by a naval and military ball, was given at the French embassy in this city last night in honor of the naval officers and cadets of the French training ship Duguay Trouin, now at anchor in the harbor of Baltimore. M. Jules Cambon, the French ambassador, was host and the guests invited to meet the visitors from the French republic included the members of the cabinet, the members of the diplomatic corps and prominent officers of the United States army and navy, together with their families. In the elaborate decorations of the embassy the flags of France and the United States were entwined. In the main reception hall was a painting of Washington commanding Rochambeau to begin the attack on Yorktown. A large American ensign was looped across the top of the pic-ture, while the French tri-color unfolded from either side. In the superb decorations of the several rooms thrown open for the reception were many naval designs worked in beautiful blossoms, flags and bunting, giving to the scheme a color of French and American patriotism. One of the more important decorative features in the drawing room was a large kedge anchor, surmount-ed by flowers and foliage. The Washington guests of the French

Regarding General De Wet's mental condition, reports have been very conflicting for some time. His recent inactivity points to there being some truth in the rumors, which allege that long-continued hardships under the harassing British pursuit have unhinged his mind. On the other hand, a correspondent

the Times quite recently acknowledged the "wonderful foresight and fertility of re-source" which characterized General De Wet's retreat from Cape Colony.

While none of the physicians desired to be quoted, it was learned that Carter is in perfect health, mentally and physically, and is in no danger of breaking down. conclusion that the whole question of American superiority turns on "character." "The American is successful," says the writer, "because he treats business as a science and follows it with the enthusiasm of a scientific devotee while Britons, owing to overwhelming success in the past,

have thought themselves secure and re-laxed their vigilance.

"The Briton is educated to a hundred dis-tractions, while in America there is no leisure class of young men. No doubt in American engineering we have a rival threatening British industry seriously, if not disastrously, unless a change is made in our business methods." The gross postal receipts for the last month, compared with the corresponding month of last year, for the fifty largest post offices in the country show an in-

crease of 11.4 per cent. The most remarkable increases are of 60.5 per cent at Indianapolis and 41.5 per cent at Louisville. There are seven offices whose receipts decreased, the most notable being Lowell, Mass., with 8 per cent. Baltimore also decreased almost 1.5 per cent. New York showed receipts of \$991,784, an increase of 6.3, and Chicago \$844,553, an increase of 29.6, the latter being one of the largest of the increases.

#### ANTI-PIGEON MURDER BILL. It Will Be Introduced in Legislature at Albany Today.

A special to the New York Tribune from Albany last night says: The storm of in dignation over the wholesale butchery of pigeons at Interstate Park has resulted in legislation which is intended to check such exhibitions. A drastic bill has been framed through the efforts of William Dutcher and Ralph Waldo Trime of the American Humane Society, under the provisions of which the shooting of pigeons either for mere amusement or for the practice of marksmanship is made a misdemeanor. The bill also provides for the repeal of the existing law, which permits clubs to shoot pigeons for practice, and under which the slaughter of birds by the Interstate Asso-

clation of Marksmen was shielded from prosecution. This statute is known as Chapter 107 of the Laws of 1875. The bill will be introduced tomorrow in both branches of the legislature by Assemblyman Bennett and Senator Slater of New York. Mr. Dutcher and Mr. Trime visited the governor late this afternoon, and were assured by him of his support. It is accordingly believed that the bill will not fail of passage because of the near approach of

The provisions of the bill are as fol

"Any person who keeps or uses a live pigeon, fowl or other bird for the purpose of a target, or to be shot at either for amusement or as a test of skill in marksmanship, or shoots at a bird kept or used as aforesaid, or is a party to such shooting, or leases any building, room, field or promises or knowingly permits the response. ing, or leases any building, room, field or premises, or knowingly permits the use thereof for the purpose of such shooting, shall be guilty of a misdemeanor, and shall be liable to a penalty of \$60 for each violation of this act, and to an additional penalty of \$25 for each pigeon, fowl or other bird shot at or killed in violation thereof. Nothing in this act shall apply to the shooting of game."

the shooting of game."
"There is tremendous popular sentiment behind this bill," said Mr. Trime to a Tribune correspondent, "and were it not for the lateness of the session I would have no fears as to its passage. Reasons why

#### IRON AND STEEL BOUNTIES. Growing Disposition in Canada to Demand Their Repeal.

The iron and steel bounties offered by the dominion of Canada have grown to such proportions as to create much discussion, and there is a growing disposition to demand from parliament a repeal of the law granting them. Information to that effect has reached the Department of State through a recent report from Consul Gen

eral Bittinger at Montreal. Last year the total bounties paid on iron and steel amounted to \$312,774. So many iron and steel plants are being started in

as well as in those projected, United States capital is dominant. A single company estimates the bounties it will receive from the Canadian govern-

ment in the next seven years at a total of \$8.005,000. The bounty paid is \$3 a ton on pig fron from Canadian ore, and \$2 on pig fron from foreign ore; \$3 a ton on puddled bar from pig fron made in Canada, and \$3 a ton for steel ingots made from Canadian pig fron.
